Developer Profile:

https://michaelkiger.net

Ten years experience with VPS, web server admin, website hosting. Have my own VPS for website development projects.

Recent References:

(Fiverr Gigs)

Collaborated with the owner and developer of saxophoneforsale.com on the layout and tech used to display the website. Created some of the layout and particularly CSS design.

Added schema markup JSON-LD format to https://www.epixcruiseandtravel.com. Received 4.3 star review on Fiverr. Client had a hard time understand my explanations about schema markup so he gave me a lower score on 'communication'.

Setup content access control with SureCart and SureMembers: https://omred.openmind.eco. Was able to complete work on this website even though I don't speak or read Spanish well. Utilized translation tools. The theme is education about bullying.

Solved problems with SureCart Ecommerce checkout page display for digital products sales and shipping methods: https://patrickoben.com.

Michael Kiger’s overall star rating on Fiverr is 4.9.
